

Foster Quality Policy

Foster is committed to our customer's success by providing innovative technology and manufacturing solutions that meet or exceed customers' expectations and regulatory requirements, and to deliver products and services of superior quality. We fulfill this commitment by:

- Maintaining our quality leadership position in the design and manufacture of critical polymers, compounds, and melt extruded products.
- Providing our customers with defect-free, cost effective, and highly-engineered materials in a timely manner.
- Ensuring the continuous, proactive improvement of products and processes.
- Providing leadership that promotes, recognizes, and rewards excellence in quality.
